Greetings fellow TLA collegians,

It is such a waste of a planetary system, is it not?

Given that this is Bicycle Day 2015, the 72nd anniversary of Albert Hofmann's fateful bicycle ride on LSD, it does warrant re-representation and re-transmission of the QIQ-EC2C-CHOMSKY documentation about what constitutes non-trivial entheogenesis from a third-party Chomskyian perspective, that was formally introduced to TLA on Bicycle Day 2012, some three years ago, just under one thousand one hundred days ago, in the manner that will follow.

http://is.gd/Bicycle_Day_2012

We will now construct an entheogenesis pragma bicycle that can be learned to be driven and propelled by any psychedelic user.

This psychedelic conceptual bicycle is for the cultivation of self-sovereignty for engaging meaningfully in the planetary governance conversation, from the best-practice best-practice perspective of the ardent entheonaut, the serious psychonaut or the socially and environmentally aware recreational user.

Please refer to the attached image of the Joker wild-card from the deck of cards of the Bicycle Playing-Card company, you will find it an apt visual metaphor for riding the entheogenesis pragma bicycle of sovereign autonomous governance evolution under the influence of a psychedelic:

1. QIQ_EC2C_CHOMSKY-Bicycle_Playing_Cards-Joker.jpg

In the construction of this psychedelic conceptual bicycle you will have to engage your active imaginal and analytical faculties, but that should not be difficult for any of the TLA collegiate readers.

Like a physical bicycle, this psychedelic conceptual bicycle requires the personal performance (and, indeed, trans-personal performance) of sustained intention and effort by the psychonaut, otherwise this entheogenesis pragma bicycle goes nowhere.

Once you learn to ride this entheogenesis pragma bicycle, it is strongly recommended that you keep regularly riding it for the rest of your lives, to prove and reprove to yourself that always have the capability and competence to do so.

It is all too easy to forget how to ride the entheogenesis pragma bicycle, unfortunately.

The psychedelic conceptual bicycle has a front dharma wheel for

steering and a rear dharma wheel for propulsion. You will find representational instances of both front and rear dharma wheels attached:

3. [QIQ_EC2C_CHOMSKY-Psychedelic_Bicycle-Component-Dharma_Wheel-Rear.pdf](#)

The front steering dharma wheel, hub and spokes, is constructed from the question-vectors and questions of this QIQ (Quite Interesting Questions) mind-map. The Quite Interesting Questions will assist the psychonaut in staying on the straight and narrow, steering along the path of non-trivial entheogenesis from a third-party Chomskyan perspective.

The rear propulsion Dana-Dharma wheel, hub and spokes, is constructed from the LSD (Logical Stewardship Domains) and ACID (Active Conscience Interdiction Dimensions) of this GOV (Governance Orchestral Vector), it provides the frame-work for solid traction on Gaia's governance problems and challenges.

The navigation maps unit on the handle-bars of the psychedelic bicycle is comprised of the four sheets of the LNEs (Lineal Numinous Equation) and the TABs (Tabular Acronymic Block / Bump) of the "Psychedelic Altered Conscience Conscious Tripping Meta-program" concrete pattern poem:

Fine and refined lines of crisp black text, on the polished platinum platter of the printed page, pure know, insufflated via the optic nerve.

The process of how to shift gears on the drivetrain of this psychedelic bicycle should be self-evident to the reader, and the reader should have, no doubt, ready access to the gear and gearing to suit. However be well aware that this entheogenesis bicycle can also be propelled and ridden at baseline in neutral gear.

All the illumination head-lights and lamps for the entheogenesis bicycle is sourced from the efforts of the psychedelic bicyclist themselves, this can be summarised as:

SOMA - Sunshine Of Mature Attention

All the TLAs (Three Letter Acronym) and the ETLAs (Extended Three Letter Acronym) of QIQ-EC2C-CHOMSKY are AMA: Acronymic Mnemonic Anamnesis.

QIQ-EC2C-CHOMSKY is IUPAC for the cultivation of STEMs within psychedelic cultures.

This is an example of the practice:

This is an instance of the theory:

The theory illuminates the practice.

Closely examine the example of the practice for any "impaired judgement" and then proceed.

If you fail to establish the method-practice or falter once established, then the study of the theory either at baseline or from any of the perspectives of the spectral sunshine of the Shulgin synthetic dharma, or of the myriad natural cognates much besides, should re-establish the strength of insight to proceed anew.

In practice you will find the assembly and riding of your entheogenesis pragma, psychedelic conceptual, bicycle will be more readily achieved as part of a mutual support ensemble group effort.

It should become clear how you can craft your own functional analogues, upgrading the design of each component, take care, however that you do not weaken the conceptual infrastructure of the bicycle frame-work, through ignorance, elision, or occultation.

These briefing notes from Bicycle Day 2012 describe the upgrade induction process:

This is an apt metaphor for the upgrade induction process:

Turn the planetary situation around with a psychedelic 'Tour de Gaia', tour de force.

It is such a waste of a planetary system, it does not have to be.

Thank you for your attention.

Once again, bon chance and God's speed.
